ABOUT US

Founded in 2016, Performance Mining is an emerging privately owned company that aims to be your business partner of choice when it comes to Plant Hire, Maintenance Services and Contract Services.

The team at Performance Mining has a proven track record in providing solutions to the Mining, Civil and Transport industries.

Located in the Peel region of Western Australia, our service delivery is client focused and is underpinned by core business pillars: Safety, Environment, Performance, Sustainability and Community.

Our growing fleet of modern Plant is well supported by a team of dedicated and experienced maintenance personnel that provide 24/7 support to our clients across the regions that we service.

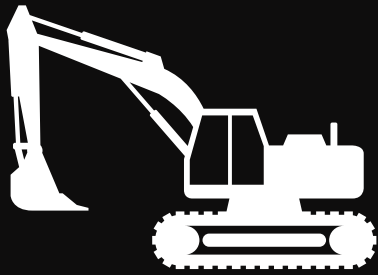

The team at Performance Mining are qualified and experienced in the demands of the mining, civil and transport industries so we are well positioned to support you and your projects.

We look forward to discussing your needs and being part of your project.
